

ALUMNI ASSOCIATION OF SRI RAMACHANDRA INSTITUTE OF HIGHER EDUCATION AND RESEARCH

GLOBAL LEARNING PROGRAM – STUDENT EXCHANGES

To
The Vice Chancellor
Sri Ramachandra Institute of Higher Education & Research

Respected Sir,

I am happy to state that I, Dr. Sharmila (Alumnae MBBS 1997-1998 Batch) Founder & Managing Director of Inspira conducted the Global Learning Program to Stanford University, UCSF & Berkley University in collaboration with my partner Scholastic Expedition in USA for a group of 3 students from May 24th to June 3rd 2018.

The objective of this program is to provide Indian Medical students exposure to various aspects of medicine and healthcare, as it is practiced in the United States. Previous year 14 students from SRIHER travelled on the same program.

We were also happy to have a post program – Knowledge Sharing session at the Optimus UG conference. Here students of our Global learning program from various countries participated and shared their experience and how the program helped them find various career progression options.

Attached please find pictures from both events for your reference and the google link with all their testimonial. Looking forward to our continued association.

Best Regards

Dr. Sharmila Anand
Founder & Managing Director, Inspira
