Breath Work and Yoga to Enhance your Lung Capacity and Boost Immunity

The Student Council organized a capability enhancement and wellness program titled “Breath Work and Yoga to Enhance your Lung Capacity and Boost Immunity” on 16.05. 2021

The resource person for the session was Dr. B Archana, Faculty, Department of Pathology who is also an “Art of Living” teacher for 10 years. She has taught the Meditation and Breath workshop to more than 500 people across India. She teaches yoga, meditation and Sudarshan kriya. She has been invited as a guest speaker in many institutions on the topic of mind-body medicine.

The session was organized on 15.05.2021 (Saturday) and 16.05.2021 (Sunday) to provide opportunity for students to join in any one of the sessions as per the class and clinic schedules.

The session was hosted by student council members - Ms. R. B. Akshaya, BBA and Ms. Sukhshum Saproo, BSc, Clinical Nutrition.

Dr. Lakshmi Venkatesh, Assistant Dean of Students (SRFAHS) welcomed the students and the resource person.

The one-hour session was a practical session with several take home messages and tips on breathing exercises and yoga to help improve one’s lung capacity and boost immunity.

Dr. Archana explained the importance of breath and demonstrated pranayama and breathing exercises that could be done in any comfortable position including abdominal breathing, thoracic breathing, side breathing, pursed breathing and blowing. This was followed a systematic series of stretching exercises and yoga asanas which will help in improving mobility and lung capacity. Dr Archana explained carefully about which of the yogasanas can be done by persons recovering from Covid-19.

She was joined by several enthusiastic student volunteers who followed her instructions and demonstrated the exercises to the participants. After the session was over, Dr. Archana discussed few tips on general health and eating habits to improve immunity. Dr. Archana also answered questions and clarified the doubts of the participants.

Students completed the feedback form at the end of the session. The summary of feedback is provided at the end of the report. Dr. Lakshmi and the student council members expressed their gratitude to Dr Archana for conducting the session.

The program was well received by the students of SRIHER. As many as 136 students registered for the sessions and a total of 134 participants attended the workshop on 16.05.2021 (Sunday).

ALUMNI ASSOCIATION OF SRI RAMACHANDRA INSTITUTE OF HIGHER EDUCATION AND RESEARCH

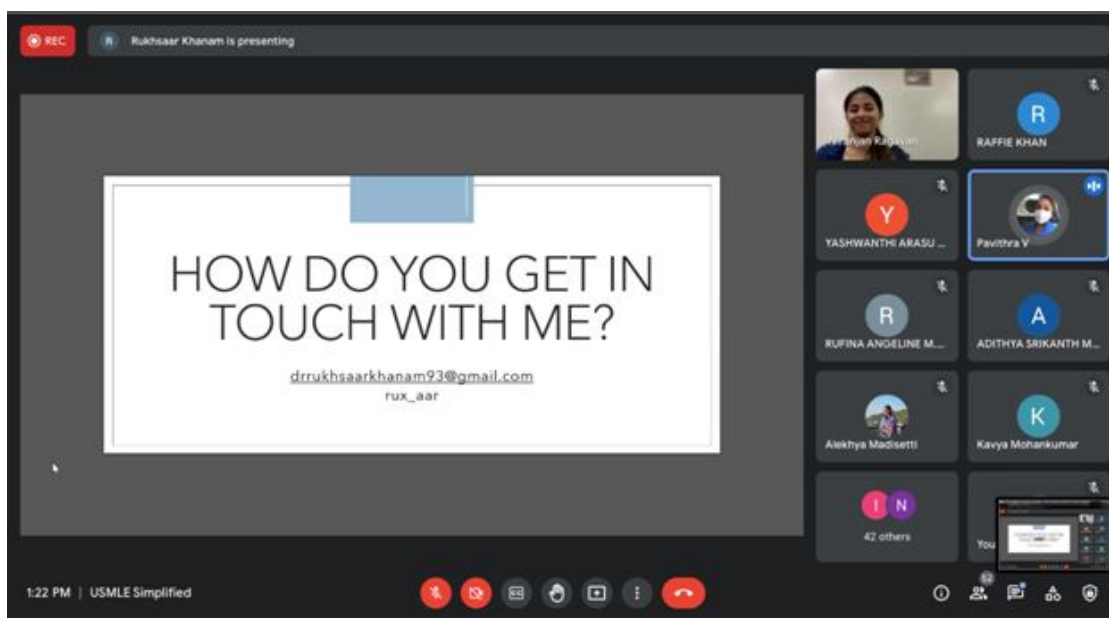

Report for USMLE Simplified

The Alumni Association of SRIHER and Student Council organized an USMLE orientation session on the 20th of December 2021 between 12-1pm. It was an online event conducted on Google Meet platform and was attended by all batches of MBBS. The speaker was Dr. Rukhsaar Khanam, Internal Medicine Resident, University of Illinois Hospital, Urbana-Champaign. Dr Leena Dennis Joseph, Associate Dean of Students and Dr. Pavithra, Associate Professor of Pathology presided and contributed to the event.

The event started off with Mr. Niranjan Ragavan welcoming the participants and introducing the speaker. Dr. Rukhsaar began with asking a few questions to the participants to assess the background knowledge of the audience. She went on to explain the general overview of the exams and how she prepared for them. She also talked about her personal experience with the exams, the resources she used and a few tips and tricks that worked for her. She then elaborated on ways to stand out in terms of the CV including research, conference presentations and clerkships. An emphasis on research was made since research forms an integral part of their curriculum, and the practice of evidence-based medicine.

She touched upon ways to stay mentally and physically fit while preparing for the exams which the participants found very relatable. She also gave a brief account of a day in her life at her hospital and on living in the US. The financial aspect of the entire process was also explained in detail. The residency interviews and matching process was elaborated along with her own experience.

In the end, many participants asked their queries, and the speaker shared her social media handles for students who wanted to reach out to her in the future. Ms. Jahnvi Srinivas gave the vote of thanks. In all, the event was a great success, and the participants gave positive feedback. Pre and Post event forms were circulated and documented.

WEBINAR - “Physical activity levels post – Total Hip Replacement”

Sri Ramachandra faculty of physiotherapy jointly with Alumni Association (physiotherapy chapter) organized a webinar titled “Physical activity levels post – Total Hip Replacement” on 10.12.2021. **Dr. Artaban Jeldi** our alumni, belonging to 2006 - 07 batch of MPT was the resource faculty. He has worked with the NHS as clinical physiotherapist for several years and also completed a PhD at GCU. Presently he is a Lecturer in Department of Physiotherapy and Para medicine at Glasgow Caledonian University, Scotland.

The webinar was held on 10th December 2021 between 2 - 4 pm; around 88 participants from various institutes of south India and across the globe attended the program. Prof. Antony Leo Aseer. P, vice principal welcomed the participants and introduced the resource faculty. Dr. Artaban shared his clinical experience, current trend and output of his research on physical activity after hip replacement surgery. Following his inspiring and highly informative talk an interactive session was conducted, moderated by Prof. Antony Leo where the questions from the participants were addressed. Ms. Michelle Rutherford introduced study and job opportunities in Glasgow Caledonian University as a special address for our alumni. Mr. K. Subbiah, Associate Professor gave the vote of thanks. The program ended at 4pm.

ALUMNI TALK - WEBINAR SERIES- 4

Opportunities in Pharmacy Benefit Management (PBM) on 01.03.2021

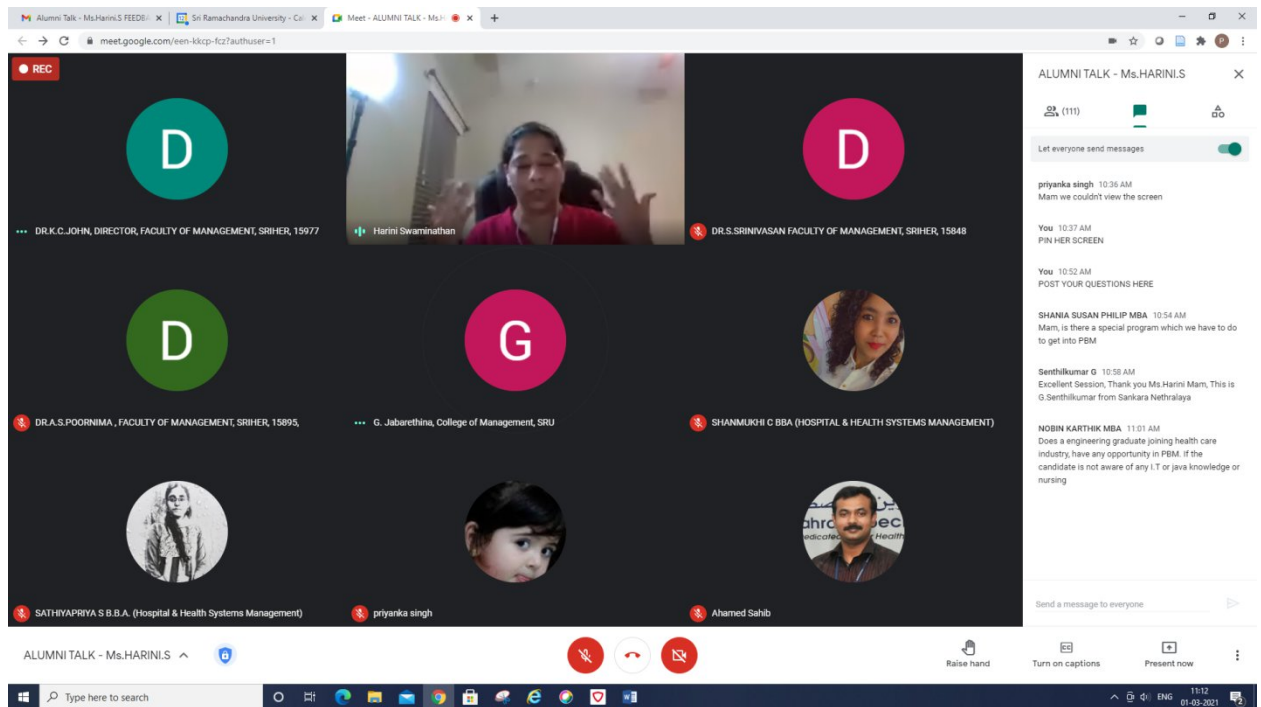

Ms. Harini Swaminathan pursued her post-graduate in SRIHER (Batch 2002-2004) is now a “Client initiative QA tech analyst” in MEDIMPACT HEALTHCARE SYSTEMS located in the United States. 135 students, faculty, and alumni members participated in the session and benefitted. She discussed the opportunities in Pharmacy benefit management for nursing, pharmacy, and healthcare professionals.

Glimpse of Alumni Talk

The screenshot shows a Google Meet interface during a webinar. The main presentation slide is titled "What is BPM" and contains the following text:

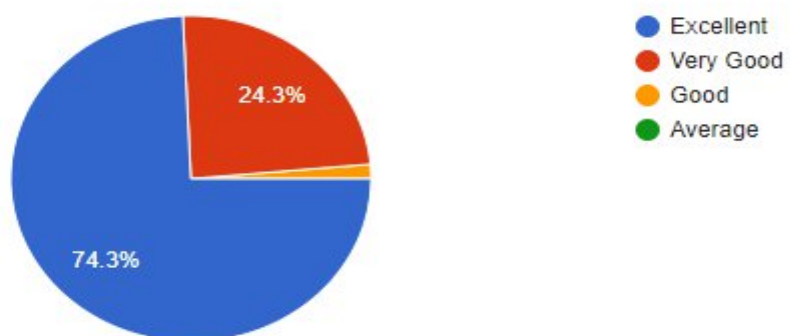

- In the United States, a pharmacy benefit manager (PBM) is a third-party administrator of prescription drug programs for commercial health plans, self-insured employer plans, Medicare Part D plans, the Federal Employees Health Benefits Program, and state government employee
- PBM works with health plans to make it easier to access pharmacy benefits, save money, and lead a healthier life.

The right side of the screen shows a grid of participants, including Harini Swaminathan (the presenter), SHANMUKHI C BBA (H...), T.Bharathi, DR.S.SRINIVASAN FAC..., DRA.S.POORNIMA, FA..., KUMARI G B.B.A. (Hosp...), SATHYAPRIYA S B.B.A., Isha Lakshmi, and SAM WESSLEY MOHAN M B.B.A. (Hospital...). The bottom of the screen shows the Windows taskbar with various application icons and the system clock indicating 10:12 on 01-03-2021.

FACULTY OF MANAGEMENT

Faculty of Management Sciences Organized a webinar on the topic - An interactive practical session on Mind and Body Management in the wake of COVID-19, on 20.04.2021 between 09:00am – 10:00am.

Dr.B.Archana, Guest Speaker addressed our students through an Interactive Practical Session on Mind and body management where she made the participants to understand how stress affects people during this pandemic. She had a detailed discussion with the students about how mind works when we are stressed. Glimpses on how to improve immunity during pandemic was covered during the session. She also taught the students the importance of physical activity to keep them active during this pandemic and how mind, breath, lifestyle and food habits influence human health, mind and body.

She also demonstrated all the participants and made them to involve in relaxation exercise for 10 minutes and taught everyone how to do desk yoga, simple Pranayama with detailed instructions followed by meditation. She concluded the session by explaining the benefits of breath control and meditation and how does it makes us healthy during this pandemic. The session was the need of the hour and was well received by all the participants as they felt rejuvenated post session. Totally 71 students were participated in the webinar.

THE EFFECTS OF MEDITATION ON THE BRAIN

Meditation shows changes that reorganizes the brain. For example, the central lobes, which allow the brain to control information from the rest of the body, grow in size. Meditation also increases activity in the prefrontal cortex, which is involved in decision-making and planning.

Gyrification

Meditation improves focus by creating an increase in cortical thickness in regions of the brain responsible for attention.

Focus

Stress Reduction

Meditation decreases stress and anxiety by changing the way the brain processes information. It also reduces the production of stress hormones like cortisol.

Brain Function

Meditation improves brain function by increasing the size of the prefrontal cortex, which is involved in decision-making and planning.

Mood

Meditation increases dopamine and serotonin levels, which are neurotransmitters that regulate mood and emotion.

Cognition

Meditation improves cognitive function by increasing the size of the hippocampus, which is involved in memory and learning.

ALUMNI WEBINAR SERIES – 5

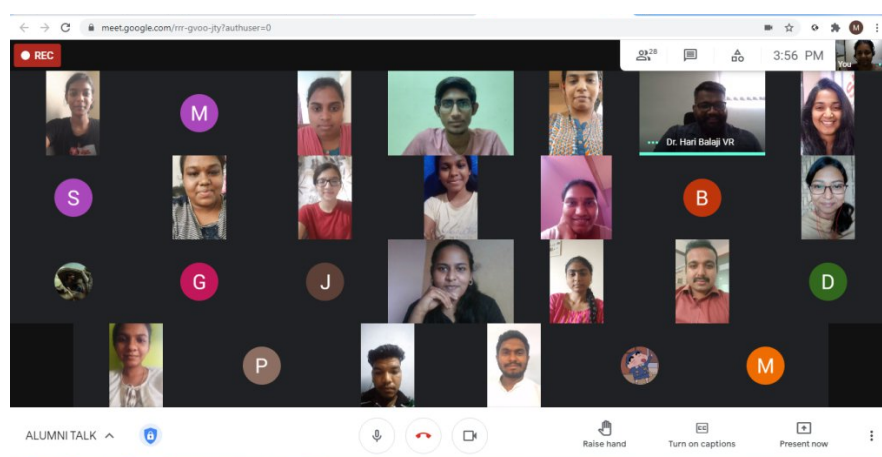

(SOLID WASTE – A RESOURCE)

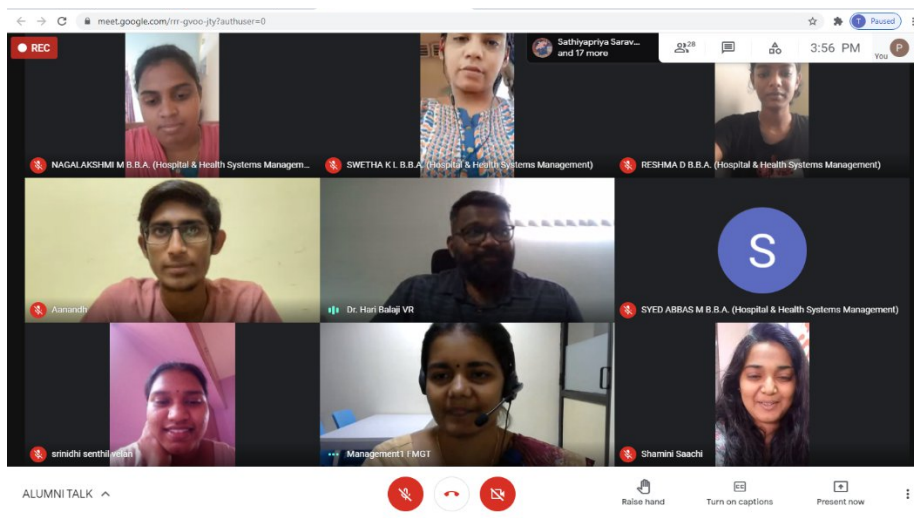

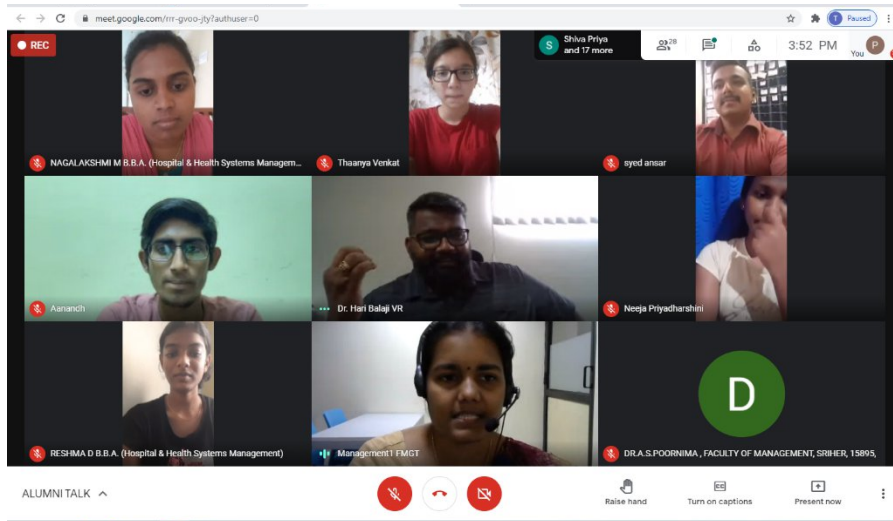

A webinar was organized on 17th April 2021 by the Faculty of Management Sciences – SRIHER on the topic “Solid Waste – A Resource”. All the management students were a part of the alumni talk.

The resource person was Dr.Hari Balaji, Alumnus (Batch 2010 -2012) Head of Information, and Education and Communication department, Urbaser Sumeet.

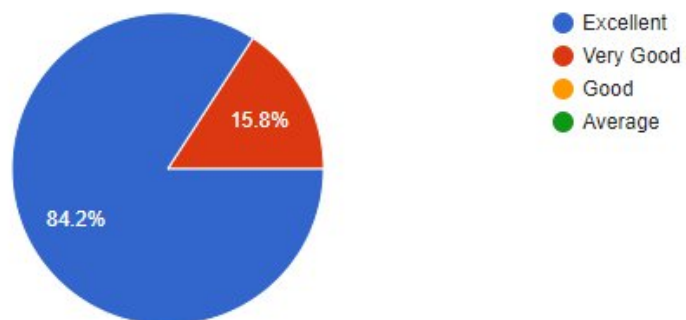

The speaker gave a gist about the various types of wastes, how wastes were segregated, what are the different zones, zonal waste disposal and so on. He also gave an essence about the waste management, current problems faced, the scope, job opportunities and much more. Following that there was a doubt clarification session in the end where he patiently listened and gave clear cut answers to all.

On the whole it was an interactive and an informative session. He created awareness among the students about the importance of waste management which was an eye opener. The deliverables from these types of lectures are clearly the knowledge asset for the students.

FACULTY OF MANAGEMENT

A webinar was organized on 1st June 2021 by the Faculty of Management Sciences – SRIHER on the topic “**Role of Accreditation in Hospitals & Challenges Faced during Accreditation Process**”. Ms.Akshaya.R.B II year BBA was the master of ceremony and extended a hearty welcome to all the participants and the alumni. The resource person was Ms. Preethi Dharnesh, Quality Manager of Adhiparashakthi Hospital, Melmaruvathur, Tamilnadu and Ms.Samyuktha II year BBA introduced the guest speaker of the day. All the management students were part of the forum and there were 170 attendees.

The webinar was structured with an introduction to quality with respect to the health care organization. The speaker provided an essence of the complexity in healthcare management. The resource person gave a gist about accreditation and its positive impact on both the patients as well as the employees of the organisation. She also briefed about the challenges like blame culture, lack of involvement, inherence of cultural changes, etc faced due to continuous quality improvement.

On the whole, it was a very interactive session and the questions were clarified by the speaker in a profound manner. The real time experience shared by the expert speaker was very informative and edifying.

The session strengthened the knowledge of the students by listening to industry experts perspectives. The vote of thanks was proposed by Ms.Thejashree II year BBA.

WHY QUALITY IN HEALTHCARE...?

A Harvard study shows that 5.2 million **medical errors** are happening in India annually.

Similarly the British Medical Journal quoted that India like any other developing country is recording a lot of medical errors.

The reason behind this is that we have not trained our healthcare professionals, especially doctors and nurses to measure the clinical outcomes.

Sarn Wessley Mohan is presenting

SUBASH P BBA (HOSPITAL & HEALTH SYSTEMS MANAGEMENT) and 138 more

WHY QUALITY IN HEALTHCARE...?

- ✓ To meet patient needs & expectations
- ✓ To enhance safety culture
- ✓ Standardization & consistency in processes
- ✓ Follow evidence-based system / practices
- ✓ Avoid litigations
- ✓ To have skilled manpower
- ✓ Healthcare costs
- ✓ Transparent workflow
- ✓ Benchmarking
- ✓ Eliminate waste
- ✓ Employee satisfaction & career development
- ✓ To know where we are through measurable metrics for assessing your hospital performance to achieve your goals

TO HAVE A DATA DRIVEN CULTURE"

ROLE OF ACCREDITATION IN HEALTHCARE QUALITY

"Healthcare organization are the most complex to manage!"

Accreditation is "Self-assessment and external peer assessment process used by health care organizations to accurately assess their level of performance in relation to established standards and to implement ways to continuously improve".

- Creates a positive impact on adhering to standard practices in terms of all aspects of healthcare delivery system, benefited to both patient & employee.
- It stresses on safe clinical care, standardized work flow, communication with patients, standard documentations, patient rights, feedback system, evidence based clinical practice, appropriate use of resources, etc.,

FACULTY OF MANAGEMENT

Faculty of Management and sciences organised a webinar on the topic - Transitioning from the classroom to the corporate, on 10.06.2021 between 08.30am – 10am. Guest speaker Ms.Susan Rajan (MBA Batch 2002 -2004) addressed our students on the topic - Transitioning from the classroom to the corporate world. The objective of this session was to introduce the students to learn the skills to face the corporate world. It was the need of the hour topic in this new evolving world as speaker rightly pointed “Hard Skills- helps us to get a job however Soft skills are important to hold on to the job”. She shared very valuable information for future generations and for the students as to how critical is to learn the Soft skills. Thanks to the speaker for illustrating the importance of soft skills based on her personal and professional experiences.

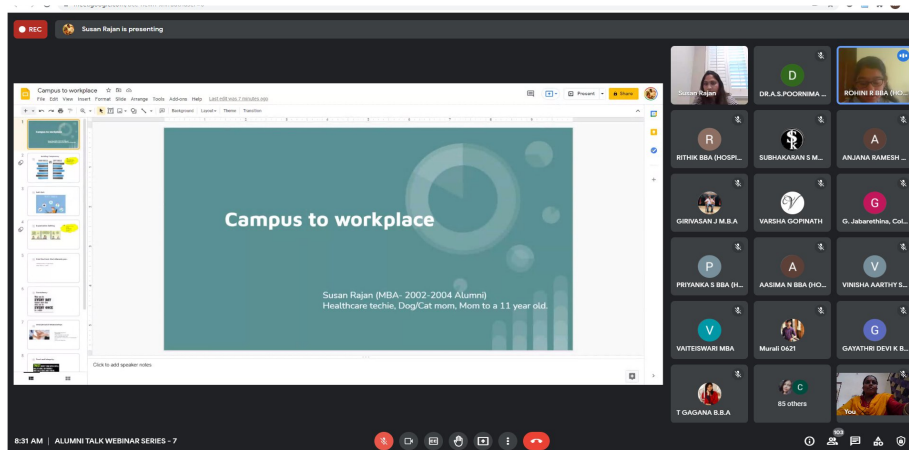

Also, she mentioned about the entry to Health Care IT industry, determination and willingness to learn on the job along with real time experience. It was indeed very motivational to the students. Students greatly appreciated the presentation and recorded positive feedback. It was nothing short of incredibly informative and interesting and answers to all our students’ questions were spot on. We wholeheartedly appreciate all efforts in working with our students and alumni members. Totally 165 students were participated in the webinar.

GAP ???

- There's a soft skills gap in healthcare candidates due to several factors, including shifts in focus in the education system, technology, and stress.
- Healthcare workers are expected to deal with stressful situations every day. Maintaining a level of professionalism—defined as “having a courteous, conscientious, and respectful approach to all interactions and situations in the workplace”—is essential for navigating these stressful situations.
- Over 1.5 million new employees arrive on the job prepared and competent with the required hard skills. However, within the first year and a half of employment, 46% underperform based on issues related to work ethic and attitude.

THERE ARE SEVERAL WAYS TO HELP CLOSE THE GAP.

- Personality assessment tests**
The first step is to understand oneself better to see where improvement might be needed. Personality tests can help people identify strengths, weaknesses, and tendencies in their natural personality. Becoming self-aware is the first step in growth.
- In-person training, mentoring, and coaching**
People who discover there is room to improve soft skills can consider seeking help from a mentor or asking a manager for coaching.
- Online training**
Some essential soft skills like time management and prioritization can be learned through online programs.
- Role-playing**
Role-playing offers the opportunity to practice essential skills. Practice different scenarios that challenge communication and teamwork skills. Pay attention to timing, inflection, tone, and body language.

FACULTY OF MANAGEMENT

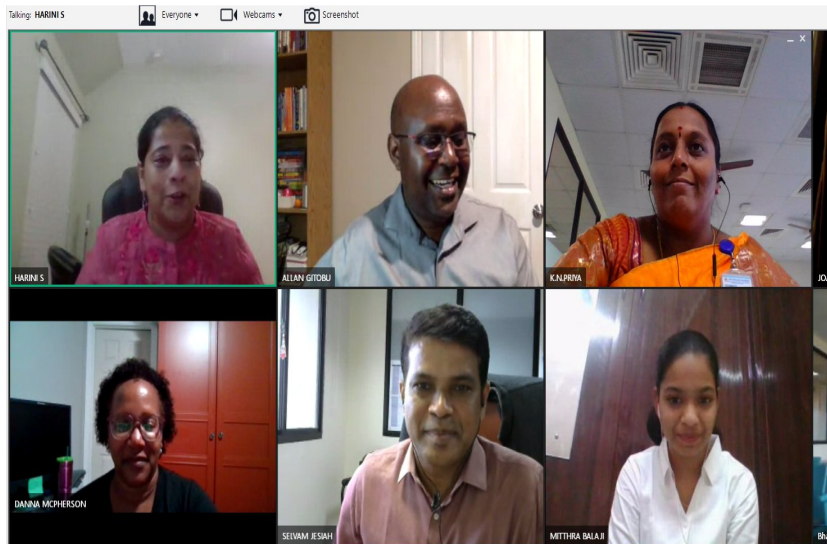

Faculty of Management Sciences Organised a webinar on the topic - Is fluency in English an overestimated Determinant of Smartness, on 01.07.2021 between 8.30AM to 10:30AM. Guest speakers are Dr.Allan Gitobu, Ms.Danna McPherson and Ms.Joann Isley. Ms.Mitthra BBA III year was the master of ceremony. She welcomed the panelist and participants to the webinar. Dr.Selvam Jesiah, Vice Principal welcomed the speakers and participants. The Inaugural address was given by Dr.K.C.John, Director – Sri Ramachandra Faculty of Management Sciences. Ms.Harini.S, Alumna (Batch 2002- 2004) introduced the speakers to the audience. The speakers presented their brief biography and started the discussion favouring the topic of the session. Ms. Joann Isley and Ms. Danna, being an American shared their experiences on English Language Communication with the students. Dr.Allan Gitobu briefed the participants about the adaptive disruption in pursuit of fluency, secret of smartness, the language barriers.

The webinar was structured with more facts and real-life experiences. The speaker gave the participants an understanding on why fluency in English is overrated but also made the participants clear that the way the word is pronounced has nothing to do with our talents. The session is followed by Q&A by the participants. The speakers clarified the participants questions and the session was wrapped up with vote of thanks by Ms.K.N.Priya, Assistant Professor, Sri Ramachandra Faculty of Management Sciences. Totally 263 students were participated in the webinar.
