### **TRAIL TO THE UK**

‘Trail To The UK’ – An orientation Session on PLAB and the medical career path to the United Kingdom was conducted by The Alumni Association of SRIHER and the Student Council on 30th January 2022, between 4:30 PM to 6:30 PM. It was conducted online on Google meet.

The speaker was Dr. Aishwarya Sharma, an alumna of SRIHER family from the ‘Warhawks’ batch of MBBS, who is currently pursuing her Masters in Cardiovascular Research from King’s College London.

The session was kicked off by Mr.Niranjan.R, member of the Student Council, introducing the speaker. 130 students from all batches of MBBS joined the session and were benefitted.

It was a highly informative session where Dr. Aishwarya spoke to the audience on all aspects of higher education in the United Kingdom.

She highlighted the following points: -

- 1) Factors to consider when planning to move abroad (Pros /Cons)
- 2) Year wise distribution of how to proceed in med-school
- 3) Importance of building a good portfolio and areas to focus on (based on the point-based scoring system for admission)
- 4) Misconceptions regarding the UK pathway
- 5) Different pathways of entry into the UK (in case PLAB doesn’t work out)
- 6) Other factors in the admission process like expenses, VISA applications etc

The speaker also shared her contact details for the audience to clear doubts or queries, if any.

Dr. M S Krishnan, Consultant and faculty of Old Age psychiatry in the UK, who graduated as part of the very first batch of our college in 1991, joined the session and shared his thoughts post the orientation.

The session concluded with a vote of thanks by Ms. Jahnvi Srinivas, member of the Student Council.

Overall, this virtual overview on the ‘Trail to the UK’, PLAB orientation session was extremely enlightening and the audience responded with positive feedback.

### FACULTY OF PHYSIOTHERAPY

#### **WEBINAR - “SELF MANAGEMENT OF COPD IN THE CONTEXT OF MULTIMORBIDITY”**

Sri Ramachandra Faculty of physiotherapy jointly with Alumni Association (physiotherapy chapter) organized a webinar titled “**SELF MANAGEMENT of COPD IN THE CONTEXT OF MULTIMORBIDITY**” on 04.03.2022. **Dr.ssSAMEERA ANSARI** our alumni, belonging to 2000 - 01 batch of BPT, 2004-2005 batch of MPT was the resource faculty. Sameera has over 16 years of experience in health care as a physiotherapist, academic, applied research scientist and project manager with a passion for chronic disease prevention and management, as well as advancing health services and health systems. Her PhD in Public Health comprised development, implementation and mixed-method evaluation of a global-first, self-management program for COPD in the context of multi-morbidity in Australian primary care. Sameera has authored peer-reviewed articles in Q1 scientific journals, research reports, and policy documents, presented at prestigious national and international conferences, and attracted competitive research funding from various organizations such as the Australian National Health and Medical Research Council, GlaxoSmithKline Australia and the World Health Organization.

The webinar was held on 04<sup>th</sup> March 2022 between 2 - 4 pm; around 145 participants from various institutes of south India and across the globe attended the program. Prof. N.Venkatesh, Professor in Physiotherapy welcomed the participants and introduced the resource faculty. Dr.Sameera spoke about the tailored, self-management education programme that led to improvement in patients’ self-efficacy in terms of their COPD and overall health behavior and the significant increase in patient activation, COPD knowledge, COPD-related quality of life and inhaler device technique. Following her inspiring and highly informative talk an interactive session was conducted, moderated by Dr.T.Senthilkumar where the questions from the participants were addressed. Dr.T.Senthilkumar, Associate Professor proposed the vote of thanks. The program ended at 4pm.

## Endpoints of the APCOM pilot study

Measured at baseline and 6-month follow-up:

- Patient Activation Measure (PAM 13) **Primary outcome**
- COPD Knowledge Questionnaire (COPD-Q)
- COPD Assessment Test (CAT)
- Multimorbidity Illness Perceptions Scale (MULTIPLEs)
- COPD-specific version of MULTIPLEs
- Accuracy of inhaler device technique

## Dr. Sameera delivering her lecture

## Stages of patient activation

- **Stage 1 (0 to ≤ 47)** where the patient does not yet believe that playing a role in their own healthcare is vital.
- **Stage 2 (47.1 to 55.1)** where patients have the knowledge and skills to take necessary actions towards their health behaviour, but lack the facts or do not have an adequate understanding of the facts necessary to attain the behaviour.
- **Stage 3 (55.2 to 67)** where the patient is taking action towards their own health but does not have sufficient confidence and/or skills to adopt new behaviours.
- **Stage 4 (≥67.1)** where patients are able to adopt new health behaviour(s) but need encouragement to uphold the behaviour when under stress.

We are happy as we were able to visually experience her life experience examples. We got to know about a lot of new stuffs and we got a clear idea on how clarity we should have on our career. It was really pleasure to listen to her speech.

Thank you

It was good motivation talk & practical way of talking about our future growth

Examples are really very good

Session was nice

The speaker's confidence and delivery is a booster for most students who are otherwise shy and reticent in class.

Departments can organise many programs like this
